NEW SUNPAK 6600PG PISTOL GRIP BALL HEAD TRIPOD MAKES DIGITAL IMAGING EVEN FASTER

Pistol Grip Tripod Captures Action with a Squeeze and Release

PMA 2010, Anaheim, CA - ToCAD America Inc. announces its new Sunpak 6600PG with pistol grip ball head. This is the world's first such innovation that combines a light weight aluminum tripod with an ultra fast acting, instant locking trigger action pistol grip ball head. The Sunpak 6600PG will be on display at PMA 2010, February 21 – February 23 at the Anaheim Convention Center, **Booth 2258**.

The Sunpak 6600PG fills the need for a high quality tripod that captures the innovative design of a pistol grip ball head making it super fast for capturing any type of action. Unlike a conventional ball head or pan head, the pistol grip ball head simple squeeze and release instant locking trigger action provides high level of speed in camera setup. The pistol grip ball head is made of light weight aluminum and magnesium for light weight and long life. With a quick release platform, camera setup could not be easier or faster. The platform allows 360 degrees of rotation perfect for video, panning or small adjustments. The pistol grip ball head also rotates 360 degrees and incorporates a cut out skirt to limit movement. With a built-in bubble level, rubber gripping surface and quick acting trigger action, capturing action could not be faster.

The Sunpak 6600PG also includes a great set of legs. With over size 1" D-shaped cross section legs, stability will never be questioned. The chassis incorporates a geared center

column for small adjustments which includes a tension adjustment for fine tuning extension friction and bubble level. The 6600PG's three section legs extend up to over 66" and for added stability include retractable rubber feet, retractable leg spikes and leg braces ready for any terrain; indoors or out. With newly designed and easy to use flip lever leg locks, working outdoors with gloves will never be a problem.

With a capacity of 6.6 lb, the 6600PG is ready to support just about any size digital SLR camera and lens combination.

Catalog number: 620-660PG

Estimated street price: \$69.99
