

Sunpak PF20XD for Digital or Film

Highlights

The Sunpak is the perfect solution for digital and film cameras that lack the power to illuminate a subject properly. Super-compact and lightweight, the PF20XD has auto and manual control modes. It can be used as a shoe mount flash or can be triggered via the built-in slave feature for cameras with built-in flashes that do not have a hot shoe. This small flash has an output guide number of 66 feet (ISO 100) and for greater coverage with wide angle lenses, 24mm can be achieved with the built-in wide angle diffuser. Its size and functionality make the PF20XD extremely economical and functional.

Features
