NEW SUNPAK 200 DIGITAL MINI PROJECTOR SO SMALL IT FITS IN YOUR POCKET OR PURSE

View Your Images and Videos Over Six Feet Wide

PMA 2010, Anaheim, CA - ToCAD America Inc. announces its new Sunpak 200 digital mini projector so small it fits in your pocket. The 200 digital mini projector is perfect for showing your images and videos to large groups and with its built in battery, no need for power. And no need to plug it in to a computer, just put in an SD card with images or videos and watch the show. The 200 digital mini projector will be on display at PMA 2010, February 21 – February 23 at the Anaheim Convention Center, **Booth 2258**.

The Sunpak 200 digital mini projector is so small, so compact and so light you can put it in your pocket and forget it's there! Its unique clam shell design makes it compact when not in use; ready in seconds with just a slide of its cover. It has a maximum resolution of 640 x 480 for sharp, crisp images and displays. With a brightness of 10 lumen and a contrast ratio of 200:1, bright rooms will never be a problem. And with a projection range of up to 10', everyone will be able to see without the bulk of a conventional projector. And with USB 2.0 and 128MB of memory, you can always be ready to show!
